## TECHNICAL SKILLS

---

**Languages:** JavaScript, TypeScript

**Frontend :** React, Redux Toolkit, Shadcn UI, HTML/CSS, Tailwindcss, SASS/LESS (CSS Preprocessor )

**Backend:** Node.js, Express.js, MongoDB

**Version Control:** Git, GitHub

**Deployment:** Netlify, GitHub Pages, Vercel

**Build Tools:** Webpack, Parcel

**JavaScript Topics:** ES6 features, Async/Await, Promises, Arrow functions, Axios/fetch

## EXPERIENCE

---

### Frontend Developer Intern

Nov. 2025 – Present

*3Engineers*

*Remote*

- Developed a responsive website **ensuring cross-device compatibility**.
- Implemented **React Router** with **lazy loading** for optimized navigation.
- Built reusable components from Figma designs and integrated **Shadcn UI** for efficiency.
- Developed **RESTful APIs** to fetch and manage user data and appointments from the database.

## PROJECTS

---

### PORTFOLIO | *React, React Router, local storage, react-i18next*

Jul 2022 – Jul 2023

- Developed a **responsive** website using **ReactJS** and **Hooks** having **skills, projects, contact-us form** in it.
- Developed and integrated a **Dark Mode** feature leveraging local storage.
- **Routing** feature has been implemented using **React Router**
- Implemented **Multilingual** feature using **internationalization (i18n)** and **react-i18next** libraries

### COLOR PICKER | *React, Webpack, Tailwind CSS*

Jun 2023 – Jun 2023

- Currently used by **650+** users
- **Color picker Chrome extension** built using **Webpack, React, and Tailwind CSS**
- Allowing users to **select colors** from their **screen** effortlessly
- Integrated **copy** functionality to enable users to copy the **selected color value**

### SKETCH BOARD | *React, Redux-toolkit, React-Redux, Canvas-api, Tailwind CSS,*

Dec 2023 – Feb 2024

- Developed a **sketch board** application using **React, and Canvas API**
- Utilized **Redux** for efficient state management
- Implemented **undo, redo, erase, and download** options for enhanced user productivity

### TRAVEL SAATHI | *React, Tailwind CSS, Context Api, Fetch api*

Jul 2023 – Aug 2023

- Built **Responsive** website using **React, JavaScript, and Tailwind CSS**
- Utilized the **Fetch API** to fetch **nearby restaurants, hotels, Café,** and attractions based on their location
- Integrated an interactive **Map** component to visualize and present a comprehensive list of nearby places
- Implemented **Search** feature enabling users to search for and discover new locations

### TYPING TEST | *React, Fetch API, JavaScript, Git*

Jun 2022 – Nov 2022

- A dynamic typing test website using **ReactJS, Fetch API**
- Created a **responsive** and visually appealing user interface using **HTML and CSS**
- Implemented a word matching algorithm to measure **typing speed in words per minute**
- Utilized the **Fetch API** to fetch paragraphs for typing tests

## EDUCATION

---

### Bharati Vidyapeeth University

*Bachelor in Computer Application*

Delhi, India

*Jul. 2022 – Present*

## BLOGS

---

- **Learn How to Create a Chrome Extension using Webpack react and tailwind-css.**
- **Learn How to Deploy Chrome Extension Locally for Developers.**
