---

## Summary

- Results-oriented Full Stack Developer with robust MERN stack expertise, committed to architecting and developing scalable web applications that address modern business challenges. I balance intuitive front-end interfaces with robust back-end systems to deliver seamless and efficient digital experiences.

## Skills

<b>Languages:</b>	Javascript (ES6+), Typescript, Golang, C, CSS, HTML5
<b>Frameworks / Libraries:</b>	React.js, Next.js, Node.js, Express.js, Tailwind CSS, Redux
<b>Databases:</b>	MongoDB, MySQL, PostgreSQL, Redis
<b>Developer Tools:</b>	Git/GitHub, Figma, WebRTC, Socket.IO, GraphQL
<b>Soft Skills:</b>	Problem Solver, Team Management, Adaptability, Quick Learner

## Experience

**Full Stack Intern | Reallist Pvt. Ltd.**

June 2024 - Aug 2024

- **Integrated** an automated email notification system using advanced automation tools to deliver **real-time** project updates, thereby increasing client engagement and improving satisfaction metrics.
- **Developed** a custom calculation tool for billing documents and demand deeds, achieving a **35% reduction** in financial processing time.
- Built a transaction management system synchronized with project milestones, which decreased manual intervention by 30% and enhanced overall operational efficiency.

**Full Stack Intern | Bizzyka Pvt. Ltd.**

Jan 2024 - Apr 2024

- Engineered an enterprise ERP dashboard using Next.js and Tailwind CSS, enhancing user experience for 100+ employees.
- Developed a robust backend for a horoscope application with Express.js, integrating Google Contacts synchronization to enable seamless data flow for a Flutter mobile app.
- Designed and Deployed pixel-perfect, responsive websites optimized for cross-device compatibility, achieving a 100% client satisfaction rate in design precision.

**Frontend Intern | Weareengineer Pvt. Ltd.**

Mar 2023 - Oct 2023

- Designed and implemented interactive contact forms using **JavaScript** and responsive design best practices to boost interactivity and user engagement.
- Leveraged **Git** for version control while actively participating in an **Agile development** environment, streamlining team collaboration and optimized development workflows.

## Projects

**Web Analytics Tracker |** React.js, Express.js, MongoDB, Nginx, AWS EC2

- Engineered a real-time analytics platform to track user interactions across websites.
- Built a scalable backend with **Express.js** and **MongoDB**, efficiently storing event data.
- Deployed the backend on an **AWS EC2** instance with **Nginx** as a reverse proxy for optimized performance.

**AI-Powered No-Code Website Builder |** React.js, Express.js, OpenAI API, MongoDB, AWS EC2, Nginx

- Built a **no-code platform** enabling users to generate fully functional websites by providing text prompts.
- Integrated **OpenAI API** to interpret user input and dynamically generate website layouts and content.
- Ensured a seamless user experience with a **React.js** front-end, offering real-time preview and customization options.

## Education

**B.E in Computer Science and Engineering | SSBT COET, Jalgaon**  
**CGPA: 7.72/10**

Feb 2021 - Jun 2025

Relevant Coursework: Object-Oriented Programming, Software Engineering, Databases, Data Structures and Algorithms, Operating Systems, Computer Networks, Machine Learning, Compiler Design, Data Mining.
